

Claude at Work Survey

Basic Information

1. Name

2. Approx. how many years of experience do you have in software engineering?

- Less than 3 years
- 3-5 years
- 5-10 years
- 10-15 years
- 15+ years

3. How many direct reports do you have?

Scale: 0 to 10 (or more) direct reports

4. What team are you on?

5. Do you have more of a research or an engineering role?

- All research
- Mostly research
- 50/50 split
- Mostly engineering
- All engineering

6. When did you start work at Anthropic?

AI Usage - 12 Months Ago

Please answer these questions as of 12 months ago. We are specifically interested in AI use at work.

7. Estimate what percentage of your work involved Claude/other AI tools 12 months ago

- 0-20%
- 20-40%
- 40-60%
- 60-80%
- 80-100%

8. How did Claude/other AI tools affect your productivity 12 months ago?

- I get less done than before

- No significant change
- I get 0-20% more done in the same time
- I get 20-40% more done in the same time
- I get 40-60% more done in the same time
- I get 60-80% more done in the same time
- I get 80-100% more done in the same time
- I get >100% more done in the same time

Current AI Usage and Impact

Please answer these questions as of today. These are questions about your current habits and use-cases with Claude.

9. What do you currently use Claude for? (select all that apply and indicate frequency)

Frequency options: Never, Monthly, Weekly, Few times a Week, Daily

- Implementing New Features
- Debugging
- Refactoring
- Data Science (e.g. matplotlib code)
- Frontend Development
- Code understanding/exploration
- Testing (writing tests, mocking)
- Documentation (writing READMEs, comments)
- Infrastructure/DevOps
- Learning (new languages, best practices)
- High level design/planning

10. Are there other tasks you currently use Claude for? How frequently?

11. For tasks where you currently use Claude, how does it affect your time spent on the task?

Note: Leftmost columns = less time spent, i.e. more productive.

Options: Significant decrease, Slight decrease, No change, Slight increase, Significant increase, I don't use Claude for this

(Same task list as question 9)

12. [Optional] If Claude is increasing your time spent on any task(s), could you briefly explain why?

13. For tasks where you currently use Claude, how does it affect your output volume?

Some illustrative examples of output volume: lines of code written (although this is not always the perfect proxy!), number of docs written, plots made per unit of time

Note: Leftmost columns = less output volume, i.e. less productive.

Options: Significant decrease, Slight decrease, No change, Slight increase, Significant increase, I don't use Claude for this

(Same task list as question 9)

14. If there are tasks above where Claude significantly impacts time spent or output volume currently: Could you elaborate and provide one (or more) detailed examples?

15. Estimate what percentage of your work currently involves Claude

- 0-20%
- 20-40%
- 40-60%
- 60-80%
- 80-100%

16. How does Claude currently affect your productivity?

- I get less done than before
- No significant change
- I get 0-20% more done in the same time
- I get 20-40% more done in the same time
- I get 40-60% more done in the same time
- I get 60-80% more done in the same time
- I get 80-100% more done in the same time
- I get >100% more done in the same time

Work Delegation and Preferences

17. What % of the work that you currently do with Claude is work that you think wouldn't have happened otherwise (i.e. no one would have done it if Claude hadn't)?

- 0-20%
- 20-40%
- 40-60%
- 60-80%
- 80-100%

18. [Optional] Could you briefly explain your answer above?

19. What % of the work that you currently do with Claude is work that you would not have enjoyed doing yourself (vs. work you would have enjoyed doing yourself?)

- 0-20% work I would not have enjoyed doing myself
- 20-40%

- 40-60%
- 60-80%
- 80-100%

20. Estimate what percentage of your work you could currently fully delegate to Claude

- 0-20%
- 20-40%
- 40-60%
- 60-80%
- 80-100%

21. [Optional] Could you briefly explain your answer above?

AI Usage Patterns

22. What is the rough split between time spent using agentic (e.g. Claude Code) vs. conversational AI (e.g. Claude.ai, #ask-claude) for you currently?

- 100% agentic, 0% conversational
- 90% agentic, 10% conversational
- 80% agentic, 20% conversational
- 70% agentic, 30% conversational
- 60% agentic, 40% conversational
- 50% agentic, 50% conversational
- 40% agentic, 60% conversational
- 30% agentic, 70% conversational
- 20% agentic, 80% conversational
- 10% agentic, 90% conversational
- 0% agentic, 100% conversational

Future Projections (12 Months From Now)

Please answer these questions as of 12 months from now. We know this may be hard to answer, but please give your best estimate.

23. Estimate what percentage of your work will involve Claude 12 months from now:

- 0-20%
- 20-40%
- 40-60%
- 60-80%
- 80-100%

24. Estimate what percentage of your work you could fully delegate to Claude 12 months from now:

- 0-20%
- 20-40%
- 40-60%
- 60-80%
- 80-100%
